MEMORY DEWEY

Un jeu pour
apprendre les mots
de la Classification
Décimale de Dewey

Roselyne Berthon & Lilian Cailleau

Règle du JEU

Mélanger toutes les cartes et disposer-les en rangées, face cachée sur la table.

Le premier joueur retourne deux cartes :

- Si les images sont identiques, il gagne la paire constituée et rejoue.
- Si les images sont différentes, il les repose faces cachées là où elles étaient et c'est au joueur suivant de retourner 2 cartes.
- La partie est terminée lorsque toutes les cartes ont été assemblées par paires.

A la fin de la partie, celui qui a le plus de paires gagne !

Objectifs et variantes

Memory ludo-éducatif : jeu inclusif de paires et de mémoire. Jeu de 58 cartes.

Celui qui a plus de paires à la fin de la partie, gagne.

On peut moduler le nombre de paires que l'on cache sur la table au début de la partie pour rendre le jeu plus compliqué.

C'est le plus jeune qui débute la partie.
Un jeu pour 2 à 4 joueurs.

Memory Dewey est proposé
par Roselyne Berthon et
Lilian Cailleau,
professeur.es
documentalistes en collège
(37 et 28)
