

## Time Game

### Pair work :

- A. est envoyé par B pour aller lire l'heure sur une horloge (accrochée dans une autre pièce ou dans le couloir). Le numéro devant chaque question correspond au numéro de l'horloge.
- B. va voir l'horloge et annonce l'heure qu'il a lu a A.
- A et B cherche le résultat à la question.
- Chaque binôme détient une feuille avec les questions dans un ordre différent.
- A la fin du jeu on confronte les résultats.
